

# SPECIFICATIONS

**ARTICLE**

Designation : **Steel bearing**

Code bobet :

**203 : ref.6005, B25**

**204 : ref.6202, B15**

**206 : ref.6204, B20**

Selling Unit : **Unit**

*Non-contractual pictures*

**CHARACTERISTICS**

- Stiff bearing with one ball line
- 2RS type = double proofness
- The lifetime of a bearing is defined by the number of laps or hours required, at a constant speed, before bearings show the first signs of wear of the material of which it is made.

| Details   | Bore diameter | Outer diameter | Thickness | Speed limit (rpm) Lubrication | Dynamic load capacity | Static load capacity | Weight    | Code |
