**CHARACTERISTICS**

Thick black pad for difficult cleaning

- Composition : nylon fibers, specific minerals, polymer resin
- Colour : black
- Abrasion : 3.3g removed
- Thickness : 26 mm
- Dimensions : 95 x 158 mm
- Weight : 2300 g/m², 35 g/unit

DESCRIPTION :

This multi-purpose pad in high quality thick synthetic fibers, ideal for difficult cleaning and scouring, is made of a non woven patch with an open structure with abrasive particles homogeneously spread and stuck with a powerful resin.

BENEFITS :

- Excellent scouring properties, loosen burnt food residues from dishes, pans, grills, pianos...
- Does not hold and does not leave harmful products
- Scours under hot water with current cleaning products
- Very good durability
- Dimensions enabling to fit handles

APPLICATION / MAINTENANCE :

- This pad loosens food residues firmly embedded in dishes, pans, grills, pianos, ovens, roasters...
- This pad is not recommended for surfaces sensitive to scratching
- This pad also suits for some industrial applications, such as cleaning of pieces and equipments.

MAINTENANCE : Rinse the pad with hot water after each use. Remove embedded residues with a nylon brush.

PACKAGING :

Bag of 10 pads
