- Loading capacity : 200 kg
- Standard casters system : 4 swivel housings with wheels in grey thermoplastic rubber
- Hot-chromed galvanized steel housing
- Colour : blue
- Temperature : -30°C to +70°C > short period up to +90°C

MAXIMUM SAFETY AND COMFORT

- For stacking them, the dollies have to be rotated at 90° and to be stacked into each other. Dollies have never been stacked so easily, so compactly and so safely, requiring so little space.
- An easy and fast stacking, as it is not made thanks to the casters but thanks to the patented frame
- Wheel diameter 100 mm for a better rolling resistance and an increased safety for steps and edges.
- High degree of security for products to be loaded
- High compatibility, thanks to its increased frame internal dimension (605 x 405 mm), the dolly is suitable for tanks and packagings compliant with european standards.

RECYCLING

- This dolly is fully recyclable, non-porous and does not absorb liquids. Once used, it can be crushed and reinjected again. It offers environmentally friendly and economical quality alternative.
