**CHARACTERISTICS**

Blue precut roll for delicate surfaces

- Material : Nylon fibers, particles, synthetic resin
- Colour : blue
- Abrasion : 0g removed
- Thickness : 9.0 mm
- Dimensions : width 200 mm x length 4 meters
- Pads dimensions : 200 x 100 mm
- 40 precut pads/roll
- Weight : 670g/m<sup>2</sup>

**DESCRIPTION :**

Precut pads roll in a synthetic fibers patch impregnated with a resistant resin containing specific cleaning particles for delicate surfaces.

**BENEFITS :**

- Excellent scouring performance
- No scratches on most surfaces even the most delicate
- Flexible, nimble in corners and inaccessible areas
- Open structure patch, easy to clean
- Resistant to usual cleaning products
- Very good durability
- Constant performance throughout the lifetime of the pad
- Practical and economical : precut pads
- Hygienic, under protective film

**APPLICATION / MAINTENANCE :**

- Ideal in the kitchen for cleaning/scrubbing dishes and pans, grills, rotisseries, ceramic hobs and most glass, aluminum or stainless steel kitchen utensils.
- It also allows you to carry out various manual cleaning jobs in industrial environments, in buildings, etc. (floors, stairs, desks, counters, etc.)
- The tablecloth is not very abrasive and is recommended for fragile surfaces

**MAINTENANCE :**

Rinse the pad well with clean water after each use. If necessary, remove residue embedded in the tablecloth using a

nylon brush or dip it in a cleaning solution to dissolve burnt-on food residue
