Selling Unit : **Unit**

Non-contractual pictures

**CHARACTERISTICS**

Cotton cloth

- Length of reel: 100 meters
- Width of reel: 330 mm
- Weight: 240 g/m²
- Traction: 30 N/15 mm lengthwise and 17 N/15 mm crosswise
- Tearing: 280 N lengthwise and 250 N crosswise
- Perforation: 10 N
- Coating of a cotton fabric with wax
- Very flexible and manually tearable cloth

The cloth is placed manually on the bony parts, adhering slightly to the meat so as not to move when the piece of meat is inserted into the vacuum bag. It thus adapts without loss to the part to be covered
