ARTICLE

Designation : **Electric brine pump PM3**

Code bobet : **23617**

Selling Unit : **Unit**

Non-contractual pictures

**CHARACTERISTICS**

- Start and stop activated by a latching button
- Automatic priming with constant output
- Full stainless steel
- Supplied with a red hose and a monoprobe
- Output of 750 liters per hour
- Transport handle
- Noise reduction thanks to sound absorbing plates
- Ventilation system
- Multiprobe 3 or 5 needles
- Capacity of about 15 hams per week
- Voltage : 230V single phase
- Engine power : 0.25 kW
- L.453 x l.240 x H.242 mm
- Weight : 10 kg

Rinsing the pipes thoroughly before storage is recommended after each use

SPARES PART:

- Needle code 24129

STANDARDS :

In compliance with the CEM 2004/108/CE regulation related to electromagnetic compatibility
BT 2006/95/CE regulation related to voltage limits of electrical equipment
2006/42/CE regulation related to machines
