CODE 2095 - 12L

Stainless steel graduated bucket with base

- Made of Aisi 304 stainless steel (UNI X5 Cr Ni 18 10) compatible with food contact.
- The base allows a better grip of the bucket to empty it, but also to reduce the contact surface on the ground

DIMENSIONS:

- code 2095 12 liters:

Height 321 mm (including the eyelet for fixing the handle), bottom diameter: 202 mm, top diameter: 312 mm

Weight: 1.49kg

Graduated every liter

In addition to the line materializing each liter, numbers are written to find your bearings: 5 - 8 - 10 & 12

- code 9345 15 liters:

Height 335 mm (eyelet for fixing the handle included), bottom diameter: 202 mm, top diameter: 325 mm

Weight: 1.62kg

Graduated every liter

In addition to the line materializing each liter, numbers are written to find your bearings: 5 - 8 - 12 & 15

USE AND MAINTENANCE OF STAINLESS STEEL:

Stainless steel is easy to clean and keep clean. Quick drying will prevent water spots.
