

# SPECIFICATIONS

**ARTICLE**

Designation : **Aluminum container**

Code bobet :

**3994 : 225 ml**

**3995 : 350 ml**

**3996 : 490 ml**

Selling Unit : **Hundred**

Non-contractual pictures

**DESCRIPTION :**

**Temperature :** -20°C / +350°C

**Material :** Aluminium

**RECOMMENDED STORAGE / APPLICATION :**

We draw the attention of aluminum tray users to the aggressiveness of certain foods that can lead to corrosion of aluminum, such as salt, chocolate, tomato, lemon, apple, hot spices, etc... Conservation testing is recommended before packaging these products in containers.

Aluminum containers are intended for single use.

Their use may modify their mechanical characteristics, it is therefore the responsibility of the user.

Store in a dry, cool place with a relative humidity of less than 85%.

We recommend storage away from the sun or any source of heat.

Heat treatment of food during cooking heating and reheating with the exception of foods which can lead to corrosion of Aluminum.

- Do not make direct contact with electrical parts and direct flames.
- Use only in microwave ovens that allow the use of these kind of container.
- Use only in ovens that allow the use of these kind of container.
- The container must not touch the walls of the oven, minimum 2 cm between the walls of the oven and the container
- Do not put the empty container into the oven
