Category III Type B Personal Protective Equipment - Class I Medical Device

Single-use glove, non-sterile

Material: Nitrile

Color: Blue

Edge: Rolled

Texture: textured fingers

Palm thickness: 0.07 mm

Finger thickness: 0.08 mm

Glove length: greater than or equal to 240 mm and greater than or equal to 250 mm for XL and XXL

Powder-free

Ambidextrous

ADVANTAGES:

- Accelerator-free to limit type IV allergies
- Ultra-comfortable glove and faster donning thanks to its internal polymer coating
- High elasticity and good dexterity
- Non-slip texture for excellent grip and handling of objects
- Waterproof and airtight glove

APPLICATIONS :

- Glove intended for professional use
- In a medical environment, this glove is used to act as a barrier against micro-organisms
- In an industrial environment, this glove is intended to protect the wearer from tested chemicals (type B) and

micro-organisms (bacteria, moulds and viruses)

- Powder-free, it reduces the risk of airborne contamination and limits the risk of irritation
- Without natural latex, this glove is recommended for people allergic to it
- This glove is suitable for food contact for all types of foodstuffs (short-term use)

RECOMMENDED STORAGE / APPLICATION :

Must be used on healthy skin only

Single use, do not reuse

After use, comply with national regulations in force for disposal of the device

Normal conservation and storage conditions: must not be exposed to humidity and sunlight

Product shelf life: 3 years
