## CHARACTERISTICS

Coverfeel® Care Long 1144 Nitrile Glove

Category III Type B Personal Protective Equipment - Class I Medical Device

Single-use glove, non-sterile

Material: Nitrile

Color: Blue

Edge: Rolled

Texture: textured fingers

Palm thickness: 0.10 mm (+ or - 0.2 mm)

Finger thickness: 0.11 mm (+ or - 0.2 mm)

Glove length: greater than or equal to 290 mm and greater than or equal to 300 mm for XL and XXL

Powder-free

Ambidextrous

ADVANTAGES:

- Accelerator-free to limit type IV allergies
- Ultra-comfortable glove and faster donning thanks to its internal polymer coating
- High elasticity and good dexterity
- Non-slip texture for excellent grip and handling of objects
- Its robustness gives it greater durability
- Cuff for optimized protection
- Waterproof and airtight glove

## APPLICATIONS :

- Glove intended for professional use
- In a medical environment, this glove is used to act as a barrier against micro-organisms
- In an industrial environment, this glove is intended to protect the wearer from tested chemicals (type B) and micro-organisms (bacteria, moulds and viruses)
- Powder-free, it reduces the risk of airborne contamination and limits the risk of irritation
- Without natural latex, this glove is recommended for people allergic to it
- This glove is suitable for food contact for all types of foodstuffs (short-term use)

**RECOMMENDED STORAGE / APPLICATION :**

Must be used on healthy skin only

Single use, do not reuse

After use, comply with national regulations in force for disposal of the device

Normal conservation and storage conditions: must not be exposed to humidity and sunlight

Product shelf life: 3 years

**PACKAGING :**

Size 6 to size 9: Box of 100 gloves (10 boxes of 100 gloves per carton)

Size 10 and size 11: Box of 90 gloves (10 boxes of 90 gloves per carton)

**STANDARDS :**

- Designed and distributed under a quality system certified ISO 13485 & ISO 9001
- Complies with the requirements of Regulation (EU) 2017/745 Class I, relating to medical devices
- Meets the standards EN 455-1/2/3/4 for non-reusable medical gloves
- Complies with the requirements of Regulation (EU) 2016/425 Category III, relating to personal protective equipment
- Meets the standards EN ISO 21420, EN ISO 374-1/2/4/5, EN 16523-1, ISO 16604 for protection against tested chemicals (type B), micro-organisms including viruses. EN 421 for protection against radioactive particles
- Complies with the decree of 05/08/2020 relating to rubber materials and objects intended to come into contact with foodstuffs. This glove is suitable for food contact for all types of foodstuffs (short-term use)
