Non-contractual pictures

CHARACTERISTICS

- Polyurethane straps enabling good fit of metallic aprons
- Removable and adjustable
- Colour : blue
- Thickness : 1000 µm
- Fits all metallic aprons with bib

WASH :

The cleaning process for the braces is the same as for the metallic aprons. The disinfection has to be processed with a non-acid product authorized by food hygiene services rinsing with water at a minimum temperature of 80°C.

Do not use chlorine or chlorinated alkaline products in large doses and avoid prolonged contact with these products.
