CHARACTERISTICS

Lightweight and durable, this ergonomic square scoop is detectable by metal detectors. Its one-piece design prevents bacterial contamination, and its smooth surface makes it easy to clean. Ideal for transporting ingredients in food production areas.

- Material: Polypropylene, additive detectable by X-rays and metal detectors
- Do not store the product below 0° C

Code 23962: Capacity: 0.5 L, 16.91 Fl oz

- Dimensions: L. 310 x l. 85 mm x H. 100 mm
- Net weight: 0.135 kg
- Packaging: 15 pieces per box

Code 23963: Capacity: 1 L, 33.81 Fl oz

- Dimensions: L. 350 x l. 110 mm x H. 100mm
- Net weight: 0.2 kg
- Packaging: 12 pieces per box

Code 23964: Capacity: 2 L, 67.63 fl oz

- Dimensions: L. 390 x l. 130 mm x H. 130 mm
- Net weight: 0.3 kg
- Packaging: 10 pieces per box

- Recommended sterilization temperature (autoclave): 121° C
- Max cleaning temperature (dishwasher): 93 °C
- Maximum temperature; of use (for food contact): 100° C
- Maximum temperature of use (for non-food contact): 100° C
- Minimum operating temperature: -20° C
- PH min in use concentration: -20 pH

STANDARDS :

Complies with EU Regulation 10/2011 relating to plastic materials in contact with foodstuffs
