

# SPECIFICATIONS

**ARTICLE**

Designation : **Drying cabinet for clothes**

Code bobet : **12545**

Selling Unit : **Unit**

*Non-contractual pictures*

**CHARACTERISTICS**

The modular drying cabinet enables to store and dry the clothes.

The warm air diffused by 2 heaters ensures a good drying.

The drying time can be programmed. Working principle : to increase the room temperature of 15°C (compared to the outside temperature).

A programmable clock optimizes the operating time.

- Structure in austenitic stainless steel 1.4307 (304L)
- Top, back, walls and doors in stainless steel sheet 1.4307 (304L)
- Hinged swing doors, lock with espagnolette lock
- 4 adjustable feet D.60 mm, blue polyurethane base, stainless steel threaded shaft D.12 mm, mounted on stainless steel base pieces welded on the base, adjustment height 40 mm
