**CHARACTERISTICS**

3M™ Aura™ 9320 FFP2 Foldable Mask (9300+Gen3 Series)

This mask belongs to a unique range of products offering the comfort and reliability of a forward curved mask and the ease of use of a foldable mask.

It is characterized by a strap that allows a perfect fit to all types of faces.

The use of a soft material for the parts of the mask in contact with the skin further adds to the comfort.

The following materials were used in the manufacture of this product:

- Straps: Polyester
- Nose bar: Aluminum
- Filter media: Polypropylene
- Nasal foam: Polyurethane

ADVANTAGES :

- 3-panel foldable design fits a wide variety of face shapes and sizes
- 3M's innovative Electret filter media lets you breathe easier
- Innovative tabs on top and bottom panels make positioning and adjustments easy
- Latex-free braided elastics are color-coded for easy identification
- Sculpted top panel conforms to the nose and contours of the face to ensure an effective seal

Easy to store thanks to its foldable design and individual packaging

Blue elastic FFP2 (FNP12) respiratory protection against dusts and mists in a wide variety of industrial applications and other hazardous environments. This mask is part of a unique range of products offering the comfort and reliability of a forward-curved mask with the ease of use of a foldable mask.

APPLICATIONS :

Foundries, Paint (powder), Composite materials (sanding), Pharmaceuticals, Building / public works, Agriculture, Metallurgy, Shipyards, Pottery, Food industry, Powdered chemicals, Laboratories, Powdered additives, Sawmills
