Stainless steel base

Stainless steel rod

Oscillating Articulated Foot - Vulcanized

MATTER :

Base, stem and sleeve in AISI 304 stainless steel.

Blue silicone seal (food).

Blue EPDM rubber sole hardness 80° shore (+/-5)

3A certified foot

The threaded rod of the foot is protected by a sleeve sealed by a silicone gasket at each end

The oscillating base-stem junction is also protected by a silicone seal

The rubber is vulcanized under the base designed to facilitate and optimize the cleaning of applications with strict requirements
