ARTICLE

Designation : **Stainless steel fork**

Code bobet :

3887 : 3 prongs

3888 : 4 prongs

Selling Unit : **Unit**

Non-contractual pictures

**CHARACTERISTICS**

- Manufacture: Stainless steel standard NF EN 1.4307 (304L stainless steel)
- Tooth interval:
 - * For code 3887 - 3 teeth: 75 mm
 - * For code 3888 - 4 teeth: 60 mm
- Weight :
 - * For code 3887 - 3 tines: 2.1 kg
 - * For code 3888 - 4 tines: 2.44 kg

DESCRIPTION :

Total length : 1300 mm

Handle length : 1000 mm

ALIMENTARITY :

In order to guarantee their longevity, our products are made of austenitic stainless steel (food contact), standard 1.4307 (304L).

The assembly of the elements is carried out in our workshops, under a protected atmosphere, according to the "T.I.G" welding process.
