**CHARACTERISTICS**

The perfect jacket for extreme cold! Composed of a double layer of thermal insulation and lined with additional technical elements for optimal warmth and comfort. Highly insulating and breathable, this technical jacket will meet your requirements in the most extreme working conditions.

The Extreme Cold X35J jacket has two layers of high performance thermal insulation to keep the heat close to the body. With 370 grams per m2 of thermal insulation, this jacket is the warmest designed by the brand.

An elasticated back with FlexEasy technology for more comfort and to free your movements during work.

Robust and resistant to color transfer, the FlexiTog® HTY2 fabric guarantees you a foolproof jacket! In order to maximize the longevity of the jacket, dark colors are used on dirt areas such as the front, back and underarms.

- 220g fabric
- 370 GSM insulation
- Fur lined pockets
- Reflective elements on the back
- High fur collar with reflective bands
- Stretch nylon cuffs with thumb loop to keep hands and wrists warm
- Neon yellow inserts
- Longer back for better kidney protection
- Sleeves equipped with anti-cold nylon sleeves to protect you from potential air infiltrations
- Flap over the mouth
- Rivets, on the areas subjected to the efforts, for more resistance & durability
- OptiZip - N.8 nylon zip conforming to BS3084
- Anti-mold treatment

APPLICATION :

Ideal for work in extremely cold temperatures.

Use by environment: Refrigerated warehouse / work in controlled temperature -5 to -50° C

Specially designed to keep drivers working in refrigerated warehouses and workstations with low activity peaks warm.

WASHING INSTRUCTIONS :

Machine wash at 40°C - No detergent or bleach.
Fasten all zippers when washing to prevent damage.
Tumble dry low - do not exceed 55°C
Do not tumble dry excessively. Do not iron

STANDARDS :

- Complies with European standard EN342 (protection against cold)
- Zip certified to BS 3084

EN342:2017
0,462 (B),2 X
