Reversible

Size of the glove identified by a color strap

FIELD OF APPLICATION

The GCM glove provides protection against stabbing when :

- working in slaughter houses, in meat, fish or shellfish industries
- working in catering establishments
- doing manual boning operations for processing meat, game and poultry
- working in plastics, leather, textile and paper industries
- laying floor coverings and similar works

RECOMMENDED STORAGE / APPLICATION :

Forced drying by hot or natural air ventilation but in a dry and ventilated place. Store in a cool, dry place

WASH :

Cleaning / Disinfection: PPE can be cleaned using a suitable washing gun, by soaking, by vigorous brushing or in a washing machine. In all cases, the water with added product must be at a maximum temperature of 63 ° C. Warning : the technical sheet of the product used refers to a maximum water temperature, which may be lower. Particular attention to dosage and temperature must be observed in the case of using alkaline chlorinated or acidic products. Use only products authorized by the veterinary services. The use of chlorine in large doses and at high temperature is not recommended.

Disinfection: High temperature disinfection can be done with clean water of a minimum of 82 ° C up to a maximum temperature of 90 ° C, in a machine, by soaking or sprinkling.

STANDARDS :

This glove complies with the regulation (UE) PPE 2016/425.

NF EN 1082-1 & ISO 13999-1: Protective clothing. Gloves and armguards protecting against cuts and stabs from hand knives
