Designation : **Hemispherical dome mould, stainless steel**

Code bobet :

9130 : Diam 100 mm

8534 : Diam 120 mm

Selling Unit : **Unit**

Non-contractual pictures

CHARACTERISTICS

- The various pastry ring shapes allow a pastrycook to make cakes which are good-looking and original, enabling him or her to stand out from the crowd.
- What's more, the original shape of the cream cake is itself decorative and therefore cuts back on decorating time.
- The stainless steel ring keeps its shape throughout its use but is not too thick for good heat convection during cooking.

DESCRIPTION :

Material Description : Stainless steel

APPLICATION / MAINTENANCE :

Stainless steel is easy to clean and keep clean. A quick drying will prevent water stains
