Selling Unit : **Unit**

Non-contractual pictures

**CHARACTERISTICS**

- Chromed underframe, stainless steel AISI 1.4307 (304) five-pointed star, feet with pads.
- Soft black polyurethane foam seat, tilted forward, with handgrip.
- Height-adjustable by gas jack and handled driving.
- Seat height : 590 to 740 mm.

SPARE PARTS:

- PU seat, entraxe 80x55mm - code Bobet 23903

ADVANTAGES :

- Comfortable ventilated surface
- No staples or stitching
- Resists to abrasion and corrosion

ERONOMY IN PRODUCTION :

- The high stools are used when the operator often has to move (stand up).

BENEFITS :

- Relieve the body weight on the operator's legs
- 2/3 of the weight is taken by the high stool
- The muscular fatigue decreases (heavy legs, varicose veins...)
