Tolérance sur longueur : ±1% (norme ISO 1307)

Hose intended for the equipment of tanker trucks for milk collection and transport, dock unloading stations, fixed stations, processing and packaging units

Transport of other food products: wines, beers, ciders, fruit juices, vinegar, alcohol containing up to 50%, etc. except for fatty products and oils

- Tube: food grade nitrile, white, smooth
- Reinforcement: synthetic threads with steel reinforcing helix embedded in the wall
- Coating: weather and abrasion resistant nitrile, blue, canvas grain look
- Temperature: -30°C to +80°C

Lengths have a tolerance of + or - 1%.

BENEFITS :

- Exceptional flexibility allowing the hose to bend effortlessly, with a very small radius of curvature, and without risk of kinking
- White tube, seamless, food grade, smooth, avoiding any microbial growth, meeting the most severe food requirements
- Insensitive to temperature variations: superiority of rubber over PVC
- Resistant to cleaning with most detergents or steam up to 110°C for a maximum of 10 minutes
- Non-marking coating, very resistant to abrasion
- Without phthalates
- Made from natural rubber selected according to high purity criteria and meeting the requirements of the national standards in force

STANDARDS :

STANDARDS:

Complies with the French decree of 05/08/2020 relating to rubber materials and objects intended to come into contact with foodstuffs.

CARACTERISTIQUES ENVIRONNEMENTALES

Tuyau CITERDIAL

Codes BOBET : 24433, 24434, 24447, 24432, 24431, 24435, 24444, 24436, 24437

Les impacts environnementaux de ce produit ont été analysés le long de son cycle de vie.
