Hose for washing with hot water in the food industry, with very good resistance to high temperatures. Ideal for all washing and cleaning operations in dairies, canneries, slaughterhouses and food industries. Extremely grease resistant coating. Not suitable for transporting food

- Temperature range: from -20°C to +95°C
- Tube: white synthetic rubber, smooth, grease resistant
- Reinforcement: very resistant textile tablecloths
- Coating: blue synthetic rubber, smooth, antimicrobial, resistant to atmospheric agents, ozone and grease

## STANDARDS :

The tube rubber is made of materials that comply with FDA tit 21 art. 177.2600 and BfR XXI Cat.3. Without phthalates.

Coating: according to ISO 22196:2011 (Ref.1)
