CHARACTERISTICS

The Vikan HyDrive Ø90 mm round brush (Very Stiff) is a drill-mounted brush designed to make deep cleaning in food production faster, easier, and more consistent.

Compatible with cordless drills and pneumatic tools, this professional brush transforms manual scrubbing into power-assisted cleaning—significantly reducing cleaning time and physical exertion during shift changes and deep-cleaning operations. Instead of relying on abrasive pads and repetitive motions, operators can quickly and effectively remove stubborn residues, sticky deposits, dough, chocolate, labels, and encrusted soil.

The 90 mm diameter round brush head provides broad, uniform coverage on conveyor belts, work surfaces, machinery, walls, and other accessible areas. Its dense configuration of 25 mm filaments, combined with very stiff polyester fibers, ensures high scrubbing performance in both dry and wet conditions—enabling teams to work more efficiently while improving cleaning consistency across different operators.

This industrial brush is manufactured from materials compliant with EU, UK, and FDA regulations. Its securely molded Ø6 mm stainless steel hex shank ensures a reliable connection, while stainless steel staples guarantee optimal durability in demanding environments. Arrows indicating the direction of rotation and a maximum speed rating of 1800 rpm ensure safe and correct use.

The brush head and adapter are CE and UKCA certified.

- BRISTLE TYPE: Very stiff
- COLOUR: Blue
- MATERIAL: Polypropylene, Polyester (PBT), Stainless steel (AISI 304), Stainless steel (AISI 304L)
- VISIBLE BRISTLE LENGTH: 25 mm
- BRUSH DIAMETER: 90 mm
- WIDTH: 90 mm
- HEIGHT: 80 mm
- WEIGHT: 0.143 kg
- HEX SHANK: 6 mm
- MAXIMUM SPEED (rpm): 1800
- Recommended sterilization temperature (autoclave): 121°C
- Max. cleaning temperature (dishwasher): 93°C
- Packaging: 5 pieces per carton

STANDARDS

Complies with EU Regulation 10/2011 on plastic materials intended to come into contact with food
