CHARACTERISTICS

TEMPOGENOU

- Temporized tap with knee driving, by a lever L. 432 mm, reinforced by an inner stainless steel rod
- Automatic closing temporized at 7 seconds
- Pre-set flow rate at 3 l/mn at 3 bar, adjustable from 1.5 to 6 l/min
- Wall plate with reinforced fixing via 4 stainless steel screws
- Cold or mixed water supply
- Straight model without nut, in-line inlet
- Solid brass body M 1/2"

N.B. : Provide spout and connecting flexible in complement.

BENEFITS

- Hygiene : knee driving, without hand contact
- Comfort : easy handling
- Water saving : closing temporized at 7 seconds and flow pre-set at 3 liters/mn
- Resistance : Wall plate with reinforced fixing via 4 stainless steel screws, and control lever reinforced by an internal stainless steel rod
- Reliability : unrivaled durability (foolproof mechanism in anti-scale and anti-corrosion materials, and self-cleaning temporization system)

WORKING PRINCIPLE :

- Knee-operated opening of the flow and closing temporized at 7 seconds

STANDARDS :

In compliance with the regulation of May 29th, 1997 relative to materials and items in fixed installations of production, treatment and distribution of water for human consumption

APPLICATION :

- Works sensitive to hygiene (hospitals, kitchens, food industries...)
