**CHARACTERISTICS**

Nipple with barbed fitting for flexible hose

- Suitable for many water and compressed air applications.
- Compliant with national and international standards which allows interchangeability with many global manufacturers.

TECHNICAL CHARACTERISTICS :

- Usable fluids: compressed air, water, as well as all fluids compatible with the constituent materials (charter of use available on request).
- Operating temperature: from -20°C to +100°C: these temperature limits may be modified by the type of use (nature of the fluid, service environment, etc.).
- Constituent material: nickel-plated brass
- Maximum operating pressure: 20 bar
- Flow rate: 2200 NI/min
- Passage: 12 mm
- ØD: 12 mm (code 12415), 15 mm (code 522) and 19 mm (code 523)

⚠

They essentially depend on the nature and thickness of the tube, the ambient temperature and that of the fluid conveyed, the nature of the constituent materials.
