Non-contractual pictures

CHARACTERISTICS

The Raidex pens are used for short marking, specially of cattle, sheeps and pigs.

Non food safe

The marking remains apparent on the rump of cattle and sheeps during around 4 weeks and on the back of the pigs from 1 to 2 weeks.

DESCRIPTION :

Coloured pens based on special wax, paraffin oil and high-quality colours. They offer a quality of writing on the fur of animals, they are resistant to temperature and provide high gloss. Components are not harmful to animals or environments.

Tubes, packings and waste of the materials can be disposed with household waste.

First eliminate possible contamination with a cloth, then wash with water and a cleaning product, or with soap or detergent.

PRESENTATION :

Plastic tube with a screw closing for an easy application.
