**CHARACTERISTICS**

Meat marking pencils have wooden-rimmed leads.

The leads contain binders, colorants, fillers, a fat/wax mixture, and additives.

The colorants Acid Blue 9 C.I. No. 42090 = E 133 and Food Red 17 C.I. No. 16035 = E 129 are used.

This product is a consumer item and does not constitute a chemical preparation according to legislation and cannot therefore be considered a hazardous product.

A safety data sheet is therefore not required according to EC legislation.

The raw materials used in the pencil comply with Regulations 1935/2004 and 1333/2008 and the REACH Regulation.

- Length: 175 mm

- Width: 95 mm
