Non-contractual pictures

CHARACTERISTICS

Perforated serving spoon, short

The STOP-GLISSE spoon, it is first its perfectly dimensioned spoon. Its surface and its depth enable to serve one portion with a single gesture. Its profile : its front rounded edges enable to well recover dishes in containers. The side edges, almost straight, enable to recover very fragile foods such as fish pieces.

The notch under the handle prevents the tool from sliding when it is resting in the service plate.

- Stainless steel blade, cut and stamped
- Blade shape : perforated spoon, short rod
- Overmoulded black polypropylene handle

Total length : 28 cm

APPLICATION / MAINTENANCE :

Dishwasher safe
