**CHARACTERISTICS**

TORRO SET OF 100 HOSE CLIPS

WORM DRIVE HOSE CLIPS, MULTI-PURPOSE

- Hose clips with tangent screw, width 9 or 13 mm
- Asymmetric housing : it prevents any tipping, thanks to the support remote from the screw head when tightened.
- Crown of screw : it takes the band end away from the screw head when tightened.
- Housing : made without welding nor rivet, it fits the inner surface of the band, to obtain an even tension force.
- Plain band : pressed and moulded, with rounded and raised edges, it avoids any risk of deterioration of the hose.

Material (band, screw and housing) : stainless steel 304 (AISI 1.4301)

SET OF HOSE CLIPS :

- 35 Torro hose clips
 - * Band width : 9 mm
 - * Tightening range : 10-16
- 25 Torro hose clips
 - * Band width : 9 mm
 - * Tightening range : 12-22
- 40 Torro hose clips
 - * Band width : 9 mm
 - * Tightening range : 16-27

APPLICATION :

APPLICATIONS :

In all industrial and automotive sectors.

It is intended for all types of connections on water, air and fuel circuits for which a hose/fitting junction of extreme safety and reliability is necessary.
