Designation : **Sharpening steel GIESSER oval bi-material rough**

Code bobet : **23100**

Selling Unit : **Unit**

Non-contractual pictures

**CHARACTERISTICS**

- Oval rod 300 mm
- Fine trimming - 72 stripes/cm
- Hard-chrome-plated steel on 8-microns thickness. Hard chrome prevents corrosion and increases superficial hardness
- Sage-leaf-profiled steel 22x11
- Carbon 140C3 steel
- Hardness after thermal treatment : 63HRC
- Bi-material ergonomic handle (grey elastomer and coloured ultra-resistant plastic) for an excellent grip
- No risk of slipping thanks to the safety guard
- Stainless steel plate for convenient personalization and traceability
- Integrated hanging ring to remove retention areas
- Handle colour : orange
