ADVICE FOR USE

- Users should follow the instructions for use
- This device is only for use in cleaning the soles of footwear. Any other use of the device is non-standard
- For safety reasons, children must not use this device unless accompanied by an adult
- If the device is to be used with water, it must be kept out of freezing conditions
- To clean a sole that has been heavily soiled with mud, first pass the sole directly over the nozzles, so as to wet the mud before brushing
- The use of any detergent must be subject to informations for the user being made aware of any risks linked to the use of the detergent
- Placing a duckboard or an anti-slip mat in front of the device may help prevent slipping

STANDARDS :

In compliance with the EC standards

ALIMENTARITY :

To ensure durability, our products are manufactured in austenitic stainless steel (food grade approved), standard AISI 1.4307 (304L).
