CHARACTERISTICS

First ANTI-FATIGUE compression sock for the workplace with superior technology

- Composition: 94% polyamide, 6% elastane
- High-cut leg
- Color: Black and red
- EnergyKnit technology: improves posture and promotes blood circulation
- Designed for active workers (waiters, logistics operators, medical personnel)
- Reinforced protection (heel, ankle, instep, toe box, arch)
- Antibacterial, antifungal, and antistatic
- Superior comfort and optimal support
- Moisture-wicking fabric
- Perfect fit, all-day comfort
- Recycled fibers

THERMOREGULATION: Avoid overheating or overheating. Thanks to their thermoregulating technology, these socks maintain your feet at an ideal temperature of approximately 37°C, regardless of ambient temperature variations.

ENHANCED PROTECTION:

Heel, ankle, instep, and toe box – strategically placed reinforcements reduce friction and absorb shock, providing optimal support to sensitive areas.

ANTI-BACTERIAL AND ANTI-STATIC:

Keep your feet healthy day after day while preventing static shocks. This effect contributes to lasting and optimal comfort every day.

MAXIMUM COMFORT:

With reinforced toes and heels, moisture-wicking fabric, and a perfect fit, these socks ensure consistent comfort throughout the day.

WASHING INSTRUCTIONS:

Machine wash at 30°C, do not bleach, tumble dry low, do not iron.

PACKAGING: 10 pairs per pack, 10 packs per carton
