Non-contractual pictures

CHARACTERISTICS

- Sprayer equipped with EPDM seals and specific, high-quality, and technical equipment, allowing the use and extended spraying of chlorinated products (concentration less than 10%), alkaline products, and certain acids.
- Tank: Translucent with an integrated gauge featuring a wide opening for easy filling. Screen-printed on the tank and ribbed bottom for a better grip.
- Pump: Polypropylene with safety valve and metal stem.
- Highly ergonomic pump knob
- Anti-theft adjustable conical jet nozzle with brass insert
- Dimensions: 320 x 220 x 130 mm
- Total capacity: 2 L
- Usable capacity: 1.5 L
- Weight: 0.6 kg

APPLICATION / MAINTENANCE :

- Periodic replacement of seals

CARACTERISTIQUES ENVIRONNEMENTALES
