

SPECIFICATIONS

ARTICLE

Designation : Knife sterilizing cabinet plexiglas doors

Code bobet :

23751 : 1 door

23752 : 2 doors

Selling Unit : **Unit**

Non-contractual pictures

CHARACTERISTICS

- Fully automated sterilization: each opening/closing of the door systematically restarts a new 2-hour cycle
- 15 watt energy saving lamp / Long life (code BOBET 21395)
- Ergonomic stainless steel 304 bodywork
- Plexiglas door (1 door for the small model code 23751 and 2 doors for the large model code 23752)
- IPX4 sealing suitable for industrial cleaning processes (doors closed)
- A green indicator light indicates that the cabinet is powered on and a red light that the sterilization cycle is in progress
- Magnetic bar knife holder
- The UV-C lamp (253 nm) destroys germs by killing the cells exposed to them

CERTIFICATION

99.999% efficiency (for 1h30) proven by MICROSEPT laboratory on:

Escherichia Coli

Pseudomonas Aeruginosa

Staphylococcus aureus

Salmonella enterica

REGULATIONS :

Conform to :

- Low Voltage Directive 2014/35 EU
- Standard on household electrical appliances: IEC 60335-1:2010 +A1:2013 +A2:2016
- EMC directive
- Standard EN 62471: Photobiological Safety

APPLICATION :

- Code, 23751 :
 - * Dimensions : W.496 x H.593 x D.145 mm
 - * Number of knives : 20
 - * Number of sharpening steels : 1
 - * Power : 15 W
 - * Number of lamps : 1
 - * Weight : 6.5 kg
- Code 23752 :
 - * Dimensions : W.939 x H.593 x D.145 mm

- * Number of knives : 40
- * Number of sharpening steels : 2
- * Power : 30 W
- * Number of lamps : 2
- * Weight : 11.2 kg
