CHARACTERISTICS

Industrial Tank Brush. Ideal for cleaning milk tanks, breweries and other food production facilities.

Designed with angled bristles to facilitate optimal cleaning, and large drainage holes that prevent water build-up and facilitate drying during storage.

This UST tank cleaning tool offers the ultimate in cleaning efficiency, durability and hygienic design, and is a perfect fit for all VIKAN cleaning systems. The UST tank brush is compact and lightweight, making it ideal for cleaning the interior of complex equipment

- Max. operating temperature (for food contact): 80 °C
- Max. operating temperature (for non-food contact): 80 °C
- Recommended sterilization temperature (autoclave): 121 °C
- Max. cleaning temperature (dishwasher): 93 °C
- Max. drying temperature: 100 °C
- Min. operating temperature : -20 °C
- Max. pH in use concentration: 10.5 pH
- Min. pH in use concentration: 2 pH

REGULATIONS:

Complies with EU Regulation 10/2011 on plastics in contact with foodstuffs

PROCESS :

Vikan has reinvented the design and manufacture of cleaning equipment to ensure the highest levels of hygiene and optimum food safety efficiency, even in the most critical environments. ULTRA SAFE TECHNOLOGY products are designed and manufactured to reduce the risk of foreign body contamination due to fibre shedding. ULTRA SAFE TECHNOLOGY products are easy to clean, sterilise and dry, with both thermal and chemical resistance. Their smooth finish and rounded, curved shape reduce the chance of contaminants adhering to the brushes. The space between the fibre blocks facilitates easy visual inspection and debris removal. All these features meet the requirements of regulators, auditors and retailers, and are fully tested to their recommendations.

DESCRIPTION :

Material Description : Polypropylene

Polyester

Dimensions : H.105 x L.190 x W.170 mm

Bristle description : stiff

Bristle length : 37 mm

Weight : 0.319 Kg

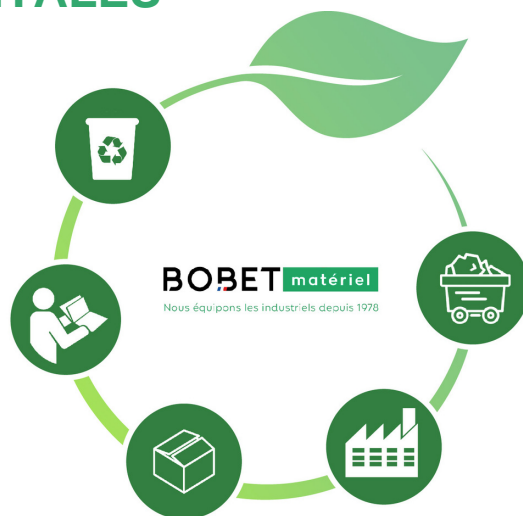

Before use, new equipment must be cleaned, disinfected and sterilized and all labels must be removed.

CARACTERISTIQUES ENVIRONNEMENTALES

Brosse à cuves UST 7030

Codes BOBET : 26291, 26294

Les impacts environnementaux de ce produit ont été analysés le long de son cycle de vie.
