

# SPECIFICATIONS

## ARTICLE

Designation : **Testo 826 T2 infrared thermometer**

Code bobet : **21362**

Selling Unit : **Unit**

Non-contractual pictures

## CHARACTERISTICS

- Ideal for the quick checking without contact of foodstuffs temperature
- Marking laser sighting by 1 point
- Core and infrared non-contact measurement in one compact device
- Audible alarm when exceeding limits
- Supplied with TopSafe protective cap (waterproof IP67), tough, hygienic and dishwasher safe + supplied with its belt / wall mounting clip
- Functions Hold/Min/max

## ADVANTAGES :

- Corresponds to the HACCP regulation, fast measurement at all times. In compliance with the standard EN 13485
- Enables to check the cold chain during storage and transport
- No unnecessary destruction of products
- Good measurement accuracy

Accuracy	Terms ( )
Range	from -50°C to + 300°C
Emissivity	from 0.1 to 1
Resolution	0.1°C
Optical resolution (D : S)	6:1
Spectral band	from 8 to 14µm
Rate	0.5 sec
Marking	laser sighting by 1 point
Working temp.	from -20°c to +50°C
Storage temp.	from -40°C to +70°C
Display	LCD 1 line
Autonomy	Around 20h
Battery	2 mignon batteries AAA
Dimensions	148x34.4x19 mm
Weight	80 g
