ARTICLE

Designation : **Variacor coupling 360°**

Code bobet :

23200 : MF 1/2" aluminum

23245 : MF 1/2" stainless steel

Selling Unit : **Unit**

Non-contractual pictures

**CHARACTERISTICS**

Freely directional "swivel" coupling for wash gun

- Ensures that the wash gun feed pipe remains flexible and directional
- Internationally patented system
- Economy : no more premature wear of the flexible feed pipe
- Ease of use : less stress caused by the rigidity of the flexible pipe makes washing easier in places with difficult access
- Comfort : no spiralling of the flexible pipe that is already in the ideal position
- Long life :
 - * Mechanical stainless steel components and anodised aluminum body - code 23200 = nominal service pressure 40 bar, working temperature -30°C to +130°C
 - * Mechanical stainless steel components and stainless steel body - code 23245 = nominal service pressure 60 bar, working temperature -20°C to +100°C

TECHNICAL CHARACTERISTICS :

- Passage : 11 mm
- Weight : 123 g
- Male connection : BSP1/2" (15x21)
- Female connection : BSP1/2" (15x21)
- Overall dimensions :
- Encombrement :
 - * Code 23200 : D.29.5 x L.81.3 mm
 - * Code 23245 : D.27 x L.74.2 mm

- Male connection rotation : 360°
- Elbow rotation : 90°
