**CHARACTERISTICS**

MEDIUM PRESSURE GUN SPECIAL AGRI-FOOD INDUSTRY

- Blue sheath in polypropylene, impact resistant
- Brass body, stainless steel spring and axis
- Adjustment screw of the jet from 0° to 60°
- Plastic front protection
- Minimum opening effort thanks to the ergonomic trigger
- Max temperature of use 90 °C
- Outlet ½ " F (15X21) DN 15
- Viton seal
- Max. Pressure 24 bars
- Max flow 60L/ min
- Weight: 914 g

DESCRIPTION :

- Robust stainless steel gun for intensive use in slaughterhouses and other food industries
- Equipped with a swivel connection at the inlet, the wrist retains total freedom of movement to direct the jet towards the most difficult to reach places - Fully streamlined, it prevents impurities from becoming encrusted, and it protects the user heat when feeding with hot water
- The hand guard prevents accidental triggering

APPLICATION :

Specifically designed for extended use in the food industry and all industries that require daily washing.
